Announcing .LAT
Who is XYZ?

XYZ is the next generation technology company building global access to fresh domain name options. As one of the top 3 new gTLD registries, XYZ’s domain endings advance the mission of empowering the next generation of internet users. With over 4 million domains under management, .xyz has quickly become the world’s #1 new generic domain ending.

Individuals, businesses, and brands in over 230 countries and territories have established their websites on XYZ TLDs, representing the mission of bringing choice & innovation to the internet. Influential adopters from all over the world are using the wide assortment of options in the XYZ family of domains to launch their ideas, while web3 pioneers are helping to make .xyz the go-to domain ending for blockchain projects.

Brands joining the #GenXYZ web3 movement include Square, Inc. (Block.xyz), Paramount Pictures (Paramount.xyz), Nickelodeon (Nickelodeon.xyz), Fox Entertainment (BCL.xyz), Bella Hadid (CyBella.xyz), Steve Aoki (A0k1verse.xyz), Chipotle (ChipotleBuyTheDip.xyz), Yuga Labs (Otherside.xyz), TCFC (CareBears.xyz), and Sanrio (HelloKittyFrens.xyz).

These brands add to the ranks of influential adopters such as Google’s parent company, Alphabet (ABC.xyz), MIT (Engine.xyz), the founders of Skype (Starship.xyz), Google’s Chronicle (Chronicle.Security), Toyota (Renovo.Auto), and JB Poindexter (REE.Auto).

Since 2014, XYZ and CEO Daniel Negari have been featured in global media such as Bloomberg, Fox Business News, NPR, TechCrunch, and WIRED.

To learn more about XYZ, visit www.XYZ.xyz and follow @XYZ on Instagram, Facebook, Twitter, and LinkedIn.

Relaunching Soon: .LAT
With the latest acquisition of .LAT, XYZ is fully invested in the growth and enrichment of Latin America.
Marketing Campaigns

XYZ is continually building awareness and desire for its TLD brands directly with target markets, and converting that traffic to retail partners. In addition, XYZ invests in the performance of its TLD products by coordinating campaigns and making marketing funds available to retail partners.

Participate in one of XYZ’s yearly initiatives to offer exciting deals on XYZ’s family of TLDs, or coordinate with XYZ on your ideas for mutual benefit and success.

Don't miss our annual initiatives:

- **.XYZ Anniversary**
  - JUNE

- **Singles Day**
  - NOVEMBER

- **Black Friday Cyber Monday**
  - NOVEMBER

Pitch your ideas to hello@gen.xyz:

- Super Bowl
- Independence Days and Holidays
- Registrar Milestones
.Game, .LOL, and the newest XYZ acquisitions

XYZ’s latest acquisitions have been revamped, and we are excited to showcase the potential of the extensions. These descriptive, memorable, and keyword-rich domains offer a wide variety of opportunities for your customers to launch their ideas online and make a powerful impression.

Stats as of 8/1/22
Premium domain names can be of great value to your customers. They tend to be short, catchy, and direct -- which can increase the chances that your customer's domain will be easier to say, read, repeat, and remember.

**High/High Premium Domains**

Domains that carry the same premium price for registration, renewal, and transfer.

* e.g. Company.xyz $1300/year MSRP

For many businesses, the consistent yearly cost of a high/high premium domain may be easier to budget than a steep one-time acquisition cost.

In addition, the price points of high/high premium domains help maintain valuable inventory that can be hand-registered. Hand registering a premium name priced by the registry can provide a much more approachable experience to your customer than tackling the aftermarket.

**High/Low “BIN” Premium Domains**

Domains that carry a premium price for registration, with standard renewal and transfer costs.

* e.g. Surf.Monster $350/1st year with $10 renewal/transfer MSRP.

High/Low or “BIN” are select premium tiers that open up access to high quality domains that have a one-time premium registration fee. This is very popular with customers that would like to secure a short or exact-match domain that renews and transfers at standard pricing.
**USE CASES**

“We chose XYZ because it’s affordable, hip, unique and widely used within the web3 industry.”

— Chang, Head of Marketing at OG.xyz

Search and download a complete list of variably priced domains at www.gen.xyz/premiums.
XYZ TLDs without Premiums

*Wholesale prices can be found on the CentralNic Registrar Console, or contact hello@gen.xyz for more information.

XYZ offers seven TLDs with a single price tier, featuring one flat fee for registration, renewal, and transfer for any name registered. The absence of variably priced domains in these namespaces makes almost every domain combination available to register at the same price. This means 1-2 character domains and keywords, such as 1.Storage, Virus.Protection, and Dallas.Cars can be hand registered for standard registration fees.

XYZ considers these TLDs “Premium Namespaces” - extensions which feature prices designed to offer multiple benefits to customers:

- Works to prevent cybersquatting so that short, memorable names remain available to be registered by businesses or individuals looking for a strong way to establish their web presence.
- Invites high-value end users to register brandable names on extensions made to serve their industry.
- Extra deterrent to abusive registrations and bad actors in the namespace.
- Projects financial credibility for customers that choose to join fellow industry leaders in securing their brand.

.XYZ 1.111B® Class

*Wholesale prices for 1.111B® Class names can be found on the CentralNic Registrar Console, or contact hello@gen.xyz for more information.

The .xyz 1.111B® Class is a category of 1.111 billion .xyz domains priced at 99¢ per year, every year. These .xyz domains encompass all six-digit, seven-digit, eight-digit, and nine-digit numeric combinations, between 000000.xyz through 999999999.xyz

A new paradigm of innovation

This first-of-its-kind segment of domains is beneficial to your customers as an inexpensive platform for Internet of Things device connectivity, vanity identification, digital currencies, and more. As a utilitarian tool, the uses for .xyz domains are only limited by the creativity of the people using them. With the exception of activities that violate the .xyz Anti-Abuse policy, there are no right or wrong ways to use the 1.111B® Class of domains.

Inexpensive, customizable, and scalable solutions

With no minimum or maximum registration requirement, the 1.111B® Class is flexible enough to serve in individual uses like app testing (e.g. 0000001.xyz), as a VoIP number (e.g. 9998422.xyz), or in sequential blocks to pair with serial numbers (e.g. 12300000.xyz – 123999999.xyz). As thousands of numeric .xyz domains are already being exchanged, the 1.111B® Class also make perfect sense as tradable assets or tools for digital currency economies.

“1.111B® Class” (99¢/year)

All 1.111 billion 6N, 7N, 8N, and 9N .xyz domains - availability as of 08/2022

Anti-Abuse

XYZ has developed a sophisticated abuse monitoring process used to proactively monitor, detect in near real time, and suspend domains in its zones engaging in any activities in violation of the XYZ Anti-Abuse policies. The Registry has developed strong partnerships with many of the industry’s leading data providers to help identify and eliminate the bad actors from the many quality users in the .xyz namespace.

Making it easy to report abuse

XYZ is highly active in online communities to monitor for reports of abuse and build trust. To report a XYZ Registry domain for abuse, anyone can open a support ticket at https://gen.xyz/abuse.

Support Teams can rely on the XYZ Anti-Abuse Team

Once XYZ has suspended an abusive domain, the sponsoring registrar is notified. These domains are usually shut down in a very short period of time to prevent any harm to internet users.

Registrants that have domains suspended by the XYZ Registry can communicate directly with the Anti-Abuse Team by submitting a request at https://gen.xyz/unsuspend. Coordinate support efforts with the XYZ Anti-Abuse Team by reaching out to xyz_abuse@gen.xyz.

Anti-Abuse in the Press

XYZ Registry’s no-tolerance policy for abuse in our zones is recognized by Spamhaus, a leading authority on IP and domain reputation data. Spamhaus published a series of collaborative articles with XYZ regarding domain abuse: https://www.spamhaus.com/resource-center/getting-the-low-down-from-xyz-registry-on-combating-domain-abuse/

XYZ is partnered with many organizations to combat abuse, such as:
Notable Press Coverage

Events

SXSW

South by Southwest (SXSW) in Austin, TX is one of the largest annual tech and media events in the country, and it’s also a great place for XYZ to connect with the community that .xyz was created to serve. Hundreds of thousands of attendees from across the U.S. and abroad attend SXSW, and XYZ has been a presence at the event since 2014, handing out swag, offering special sales on .xyz domains, holding a scavenger hunt contest that drew hundreds of participants, and even appearing on various local and national media channels’ coverage of the event.

Local events

Being that XYZ’s headquarters are located in the heart of Silicon Beach, we are thrilled to have countless opportunities to mingle with the #GenXYZ community at some of the most popular events in the country, including San Diego Comic-Con, the Electronic Entertainment Expo (better known as E3), Anime Expo, Techday, Techweek LA, and many more. We also play our part in helping grow the Silicon Beach community by hosting events at our offices like the SoCal Domainers meetup, which has become the exclusive gathering of LA’s population of passionate domain industry professionals every year.

XYZ in China

China is one of the most prominent countries when it comes to adopting .xyz domains. Our team in Beijing has attended many domain and tech-centric events in China to connect with our supporters in the country over the years. This includes the China Internet Conference, Global Domain Summit China, Namescon China, and Alibaba Yunqi Cloud Computing Conference. XYZ also sponsored China’s Internet+ Innovation and Entrepreneurship competition, the largest competition of its kind in the world, where they helped young creators, developers, and entrepreneurs get their .xyz domains.

GDS.
2019全球数字峰会
GLOBAL DIGITAL SUMMIT
Events

*Even though there are barriers to returning back to in-person events, XYZ continues to engage supporters through creative marketing campaigns with our partners.

**NADA/NIADA**
Our .Cars, .Car, and .Auto extensions together make up the premium namespace for the automotive industry online, so it only makes sense that our team would have a strong presence at the largest auto trade shows in the country: the National Automobile Dealers Association show and the National Independent Automobile Dealers Association show. At these conventions our marketing team pulls out all the stops to make sure the .Cars booth stands out, including having the one-of-a-kind .Cars, .Car, .Auto Lucra for attendees to check out and even take a seat in.

**EDUCAUSE**
XYZ has attended Educause's Annual Conference as an Educause Member to connect with tens of thousands of professionals that are in attendance at what has always been the premier higher education conference in the U.S. With many different kinds of adopters from all different sectors of the education spectrum, .College has grown to be one of our most popular domains, and our consistent attendance at Educause has helped make the .College domain extension a household name among the world's leading universities.
Partnerships

In Education

Santa Monica College

XYZ supports Santa Monica College students enrolled in the school’s film and TV program by providing each one with a .xyz domain. XYZ has introduced a website design lesson into the program, which has helped hundreds of students use the free domains to create personal portfolios online to display their creative work.

Hackathons

XYZ supports developers at learning-focused hackathons each year, providing them with domains and prizes to fuel their ingenuity.

In just the first half of 2022 XYZ placed its support behind 112 hackathons taking place virtually and throughout the world:

Partnerships

In Startups

**Generation Girl**
Through this partnership, XYZ supports programs centered on inspiring young girls to become leaders in traditionally male-dominated STEM fields by providing domains as well as shoutouts on our social media platforms, so the girls’ projects can reach a worldwide audience.

**SuperstarX.xyz**
XYZ supports Superstar X community members focused on co-creating goodness with individuals, communities, and organizations to sustainably initiate, cultivate, and propagate the transformation of systems for the betterment of all. The media collective celebrates being human and destigmatizes being different.

In Technology

**Ethereum / ENS**
XYZ has supported blockchain technology since 2018 with .xyz as the pilot domain for the Ethereum Name Service (ENS) and Domain Name System (DNS) integration. XYZ helped pioneer the joint solution with Ethereum to provide a memorable wallet address to use in place of the long Ethereum hash. For example, WalletName.xyz instead of 0x6fB9401002640741Ee58faffbd41e3F583D86f1, making it much easier to send and receive digital tokens such as cryptocurrency and NFTs.

**Eth.xyz**
In December 2021, .xyz introduced eth.xyz to continue supporting the blockchain community. With eth.xyz, all .eth name holders can display their ENS profiles in all web browsers. This shortlink can work for .eth holders in multiple ways: a lookup where you can more easily find the profile and wallet information connected to an .eth name, a method to share your addresses, or an easy way to showcase your NFT collection.

Every .eth name has been granted automatic access to an eth.xyz shortlink. Simply add ".xyz" to the end of any .eth name in any web browser and the corresponding ENS profile will display. The profile content is automatically populated from publicly available information provided through ENS, and is ultimately controlled by the relevant ENS user.

|----------------------|------------------------|------------------------|

“The .xyz domain embodies the inclusivity, openness, and optimism associated with crypto. Our experimentation with .xyz through our "Buy The Dip" campaign underscores our commitment to building a relationship with the Web3 community and providing real value to them.”

– TYLER BENSON | MANAGER, EXTERNAL COMMUNICATIONS, CHIPOTLE
