

# Registry Portfolio

## Who is XYZ?

XYZ is the next generation technology company building global access to fresh domain name options. As one of the top 3 new gTLD registries, XYZ's domain endings advance the mission of empowering the next generation of internet users. With **over 5 million domains** under management, XYZ stands at the forefront of shaping the digital landscape.

**XYZ is >1% of the internet:** our flagship domain ending .xyz represents a little over 1% of all domains in existence. XYZ Registry plays a significant role in the domain industry, responsible for ~5-7% of all new domains created daily. Notably, in 2016, XYZ broke the record for registering the most domains in a 48-hour period during a groundbreaking promotion, with an astonishing 2,551,112 domains registered.

**In over a decade of innovation**, the #GenXYZ movement is defined by the pioneering ventures of all generations of the internet:

- Fortune 500 companies such as Square's parent company (Block.xyz), Google's parent company, Alphabet (ABC.xyz), and Coinbase (Echo.xyz, OnchainSummer.xyz).
- Individuals like Steve Aoki (A0k1verse.xyz), Kevin Rose (Proof.xyz), Ty Haney (TYB.xyz), and the founders of Skype (Starship.xyz).
- Businesses and organizations including MIT (Engine.xyz), Stripe (Bridge.xyz), and Baidu (Apollo.Auto).

Individuals, businesses, and brands in over 230 countries and territories have established their websites on XYZ TLDs, representing the mission of bringing choice & innovation to the internet. Influential adopters from all over the world are using the wide assortment of options in the XYZ family of domains to launch their ideas, while web3, AI, VR, and AR pioneers are helping to make .xyz the go-to domain ending for emerging tech.

Since 2014, XYZ and CEO Daniel Negari have been featured in global media such as Bloomberg, Fox Business News, NPR, TechCrunch, and WIRED.

To learn more about XYZ, visit [www.XYZ.xyz](http://www.XYZ.xyz) and follow us "@XYZ" on X/Twitter, Facebook, LinkedIn, Instagram, and Threads.

## Over a Decade of Innovation

Celebrate over a decade of innovation with .xyz – the domain that hit the reset button on the internet!

Since its launch in 2014, .xyz has been the domain of choice for pioneers of all generations.

As .xyz celebrates over 10 years of relentless innovation, the universal and uniquely adaptable domain continues to empower millions across the globe, resonating as a symbol of progress and possibility.

Adopted in over 230 countries and territories, and by countless influencers and trailblazers, .xyz is the domain where great ideas stand out. From cutting-edge startups to global corporations, and from creative individuals to tech innovators, .xyz is the go-to domain ending for diverse, dynamic communities.

A bold, fresh choice for users who crave creativity and versatility in a domain name.

# Testimonials

“ The Peeps help brands stand out from the chaos by blending bold ideas with new and shiny creative technology. In the same way, we chose .xyz as it instantly gave us an effortlessly cool online point of difference from others in our space. We love it!”

— **Richard Norton**, Co-founder, **ThePeeps.xyz**

“ We are a consulting company focused on digital transformation in Latin America. Our efforts are driven towards contributing to the adoption of new technologies and the use of advanced analytics in companies in our region. That's the reason why we chose the '.lat' domain.”

— **Jose Angel Urbano**, CEO & Co-founder, **Beans.Lat**

“ I chose .XYZ for my artwork website as for me it was a perfectly logical and easy to remember domain suffix. It also sounds pretty cool.”

— **Adam Latham**, **AdamLatham.xyz**

“ First, it's cool. Second, x0.xyz was available and is a super concise and accurate domain name. Since we are a security company, having a simple and accurate domain name reduces risk of fraudulent urls pretending to be us.”

— **Charlie Coi**, CEO, **x0.xyz**

“ To us, xyz stands as a subtle rebellion against the status quo. While it's equally (if not more) memorable than a legacy TLD, it also conjures feelings of mystery, excitement and innovation. Additionally, being at the end of the alphabet it has a similar feeling of finality that you might find in the phrase 'qed'.”

— **Alex Fine**, CEO, **Fun.xyz**

“ .xyz is the domain of a new generation and new technologies. It's where everything interesting is happening. .Com is like your father's Oldsmobile. When people see .xyz, it's an immediate clue that you're doing something cutting edge, not just technically but culturally.”

— **Chris Heatherly**, CEO, **TheMysterySociety.xyz**

“ You want to keep your domain address short, simple and easy to remember. At the same time, you want it to describe who you are and what you do. Entro is a cyber security company. .Security, for us, is all of the above. It's a win-win situation for us and our audience.”

— **Itzik Alvas**, CEO & Co-founder, **Entro.Security**

“ Why are we called forceofnature.xyz? Young people today are not the first to fight for change, and we will not be the last. To effectively solve for climate change, we must collaborate across generations”

— **Clover Hogan**, Founder, **ForceofNature.xyz**

“ When I realized that I could pair 'omg' and 'lol' together with a .LOL domain, I knew it would be the start of something fun. Our community is built entirely around a domain consisting of iconic internet slang, and we wouldn't have it any other way.”

— **Adam Newbold**, Founder, **omg.lol**

“ .XYZ has such a unique and cool handle. I feel like it gives me a nice, modern edge that enhances my site and its look and feel.”

— **Chris Maher**, **ChrisMaher.xyz**

“ The decision was based on a combination of factors. One, it resonated with us because of its simplicity, just like the alphabet with ABC and XYZ. Secondly, the .xyz extension perfectly aligns with our product, which operates in the 3D space, where each element has x, y, and z coordinates. And, opting for .xyz provided us with a wider range of options and a clearer namespace”

— **Jason Toff**, Co-founder, **Rooms.xyz**

“ Learn.xyz lets you create learning courses on literally any topic - in a matter of seconds with the power of AI. And 'xyz' quite literally stands for that 'long tail' of content as well. Also, .xyz is for us the new .com, for a new generation trying to have a more meaningful relationship with technology.”

— **Christian Byza**, Co-Founder & CEO, **Learn.xyz**

OVER A DECADE OF INNOVATION

## Who is Using .xyz?

### Individuals

The .xyz domain's versatility makes it ideal for personal websites, blogs, portfolios, and projects, blending standout personal branding with global recognition. Actress and comedian Elaine Carroll highlights her projects and notable press mentions on ElaineCarroll.xyz. Billboard Hot 100-charting rapper Ken Carson launched KenCarson.xyz for his musical career. Tech entrepreneur Ryan Junee shares his passions on Ryan.xyz. Game designer and nonprofit leader Honey P. Rosenbloom uses Rosenbloomboom.xyz to display their varied accomplishments.

For every

### Web3

As CEO of Access.xyz Kevin Brown puts it, **"The .xyz domain, with its universal appeal, perfectly symbolized our mission to provide comprehensive, community engagement solutions. It resonated with our belief in limitless possibilities, transcending traditional boundaries, and connecting with the next generation of digital natives."** Otherside.xyz was selected by Bored Ape creator Yuga Labs for its gaming metaverse. Ty Haney's TYB.xyz is a community-driven loyalty platform that has raised \$11M in Series A funding. Web3-focused investment firm Paradigm.xyz is said to have the largest cryptocurrency venture fund ever at \$2.5B. The world has chosen .xyz as the domain that demonstrates a company's commitment to bleeding edge technology.

### Businesses

The widespread adoption of .xyz across diverse industries underscores its effectiveness in meeting the professional needs of modern enterprises. Fortune 500 companies such as Square's parent company (Block.xyz) and Google's parent company Alphabet (ABC.xyz) trust .xyz with their corporate presence. Brands like Engine.xyz, Reunion.xyz, and EllaMae.xyz demonstrate .xyz's adaptability and appeal across various business sectors. Startups are capitalizing on the affordability of standout branding with .xyz - such as 3D design platform Rooms.xyz (\$10M in funding), GPS technology solution Zephr.xyz (\$3.5M in funding), and crowdfunded smart ring Circular.xyz.

### AI & AR

**.XYZ underpins a diverse range of technologies that are shaping the future.** AMILabs.xyz is an AI research company building world models that has raised \$1.03B in seed funding, described as one of the largest seed rounds in Europe. Brilliant.xyz is the augmented reality company behind open-source Frame AI and Monocle AR glasses. Learn.xyz, a generative AI learning startup, closed a \$3M seed financing round. Slingshot.xyz is an AI-focused tech startup striving to increase global access to mental healthcare. FractionAI.xyz is an AI-enhancement platform focused on improving AI and machine learning projects. As .xyz is adopted by the AI/AR community, it continues to empower individuals and organizations by providing an affordable, adaptable, and distinctive online platform.

# .Lat & .CEO: The Latest XYZ Acquisitions

XYZ's latest acquisitions have been revamped, and we are excited to showcase the potential of the extensions.

## The Latin Way™

The domain ending that includes all of Latin America in your online presence.

**Registration/Renewal: \$30/year retail.**

A short and generic domain ending, .Lat is inspired by the limitless potential in Latin America. Memorable and easy to type, .Lat provides choice and affordability so that you can stand out online with a domain that represents your pride in being you.

.Lat is perfect for brands, individuals, companies, and organizations to develop memorable websites that connect with Latin America and over 805 million Spanish and Portuguese speakers around the world.

“We are a consulting company focused on digital transformation in Latin America. Our efforts are driven towards contributing to the adoption of new technologies and the use of advanced analytics in companies in our region. That's the reason why we chose the '.lat' domain.” — **Jose Angel Urbano, CEO & Co-founder, Beans.Lat**

**Own your brand, own your name,  
own your domain™**

Stand out as a leader with .CEO

**Registration/Renewal: \$100/year retail.**

Connect with a global network of fellow CEOs using a domain tailor-made for leaders like you. Embodying authority and distinction, .CEO positions you prominently in the business world.

Embrace leadership with .CEO domains. From crafting your executive story, sharing visionary insights, to creating an elite networking hub, the .CEO domain amplifies your branding with distinction.

“We are immensely proud to have partnered with XYZ, and we're excited about the endless possibilities our combined strengths will unveil in the future. I am proud to sport MR.CEO as my digital identity.” — **Michael Riedl, CEO of Team Internet Group, MR.CEO**

**Sofia.CEO**

Sofia Årsjö, Leadership and Recovery Programme Designer, helping organizations and individuals build resilience and sustainable performance through psychology, neuroscience, and mindfulness.

# XYZ in China

China is one of the most prominent countries when it comes to adopting .xyz domains. Our team in Beijing has attended many domain and tech-centric events in China to connect with our supporters in the country over the years. This includes the China Internet Conference, Global Domain Summit China, Namescon China, and Alibaba Yunqi Cloud Computing Conference. XYZ also sponsored China's Internet+ Innovation and Entrepreneurship competition, the largest competition of its kind in the world, where they helped young creators, developers, and entrepreneurs get their .xyz domains.

Additionally, XYZ's commitment to China extends beyond events to tangible support for various initiatives. XYZ's commitment to fostering innovation is reflected in our support for Tsinghua University's x-lab. We have partnered with academic communities, offering free domains to esteemed institutions like Xi'an Jiaotong University. We dedicate resources to the coding community through support of hackathons like the Shenzhen Hackathon, reinforcing our commitment to empowering individuals and organizations through technology and connectivity. XYZ is highly praised by the China Anti-Fraud Center for our proactive and efficient cooperation on mitigating domain abuse.

MIIT accreditation is a key milestone for domain registries operating in China, with major implications, such as activating domains to be hosted on local servers in China, and improving website performance and reliability for local users. While .xyz was one of the first new domain extensions to become MIIT-accredited, our joint cooperation with China's Ministry of Industry and Information Technology (MIIT) has since led to the accreditation of many more of the XYZ Registry domains.

# XYZ TLDs with Premiums

*\*Wholesale prices can be found on the CentralNic Registrar Console, or contact [hello@gen.xyz](mailto:hello@gen.xyz) for more information.*

**.xyz** .College .rent .quest .monster .baby .homes .autos .motorcycles .boats .yachts  
.tickets .mom .AUDIO .diet .flowers .BEAUTY .HAIR .SKIN .MAKEUP  
.GAME .LOL .pics .Guitars .hosting .CHRISTMAS .LAT .CEO

Premium domain names can be of great value to your customers. They tend to be short, catchy, and direct -- which can increase the chances that your customer's domain will be easier to say, read, repeat, and remember.

## High/Low "BIN" Premium Domains

*Domains that carry a premium price for registration, with standard renewal and transfer costs.*

*e.g. Surf.Monster \$350/1st year with \$15 renewal/transfer MSRP\*.*

High/Low or "BIN" are select premium tiers that open up access to high quality domains that have a one-time premium registration fee. This is very popular with customers that would like to secure a short or exact-match domain that renews and transfers at standard pricing.

## High/High Premium Domains

*Domains that carry the same premium price for registration, renewal, and transfer.*

*e.g. Company.xyz \$1,300/year MSRP\*.*

For many businesses, the consistent yearly cost of a high/high premium domain may be easier to budget than a steep one-time acquisition cost. In addition, the price points of high/high premium domains help maintain valuable inventory that can be hand-registered. Hand registering a premium name priced by the registry can provide a much more approachable experience to your customer than tackling the aftermarket.

CASE STUDIES  
Premium Domains

**D.xyz**

\$13,000/yr MSRP

(redirects to Destiny.xyz) - The Destiny Tech100 fund, publicly traded under the ticker DXYZ with a market cap of over \$1 billion, has shares of 23 private tech companies, ranging from SpaceX to OpenAI to Epic Games.

**Future.Quest**

\$1,000/1st yr MSRP

Community-based accelerator partnered with BMW Foundation, Polygon, and more to launch a \$1M grant pool for innovative climate projects.

**Chore.Monster**

\$350/yr MSRP

Chore and rewards platform that helps parents assign tasks, track completion, and set incentives for children.

**YB.Makeup**

\$1,000/yr MSRP

Professional makeup school started by notable Israeli makeup artist Yossi Bitton, who also founded the professional makeup line B COSMIC.

**MOD.Audio**

\$400/yr MSRP

Venture, private, and crowd-funded digital hybrid audio device company and global guitarist community, partnered with renowned guitarist Torcuato Mariano.

**Young.LOL**

\$150/yr MSRP

Personal website of designer Jordan Young, design lead at SPUN (Society for the Protection of Underground Networks) and design partner at b-theory.

**Hyper.Tickets**

\$2,000/yr MSRP

Automated digital ticketing using blockchain to make events more accessible.

**World.Game**

\$1,500/yr MSRP

An impact game development company that has raised 1.5 million euros from angel investors. Co-founder Alexandre Cadain is an expert in AI and was named one of the 30 under 30 most influential French people for being a "visionary" by Vanity Fair

**Fun.xyz**

\$1,300 BIN MSRP

A blockchain software development company building technology to advance global economic freedom.

“To us, xyz stands as a subtle rebellion against the status quo. While it's equally (if not more) memorable than a legacy TLD, it also conjures feelings of mystery, excitement and innovation. Additionally, being at the end of the alphabet it has a similar feeling of finality that you might find in the phrase "qed".”

— Alex Fine, CEO, Fun.xyz

# XYZ TLDs without Premiums

## "Premium Namespaces"

*\*Wholesale prices can be found on the CentralNic Registrar Console, or contact [hello@gen.xyz](mailto:hello@gen.xyz) for more information.*

XYZ Registry Premium Namespaces	Recommended Retail Price*
TLD	Registration, Renewal, or Transfer
	\$2,500
	\$2,500
	\$2,500
	\$2,500
	\$2,500
	\$750
	\$750

XYZ offers seven TLDs with a single price tier, featuring one flat fee for registration, renewal, and transfer for any name registered. The absence of variably priced domains in these namespaces makes almost every domain combination available to register at the same price. This means 1-2 character domains and keywords, such as 1.Storage, Virus.Protection, and Dallas.Cars can be hand registered for standard registration fees.

XYZ considers these TLDs “**Premium Namespaces**” - extensions which feature prices designed to offer multiple benefits:

- Works to prevent cybersquatting so that short, memorable names remain available to be registered by businesses or individuals looking for a strong way to establish their web presence.
- Invites high-value end users to register brandable names on extensions made to serve their industry.
- Extra deterrent to abusive registrations and bad actors in the namespace.
- Enhances credibility by projecting financial stability and commitment to security.

CASE STUDIES

Premium Namespaces

**Apollo.Auto**

\$2,500/yr MSRP

An open-source automotive AI platform developed by Baidu, one of China's largest technology companies, who also announced a ~\$1.5 billion Apollo Fund to invest in 100 autonomous driving projects.

**Chronicle.Security**

\$2,500/yr MSRP

Cybersecurity company that started as a Google X moonshot, acquired VirusTotal, and is now part of the Google Cloud Platform.

**Private.Storage**

\$750/yr MSRP

Cloud-based encrypted data storage solution.

**Hi.Auto**

\$3,000/yr MSRP

Tech company built by former Google AI systems developer aiming to innovate the fast food restaurant industry.

**Prompt.Security**

\$2,500/yr MSRP

GenAI security company that has raised \$5M in funding to reshape how enterprises approach the evolving landscape of generative AI threats.

**Carbon.Cars**

\$2,500/yr MSRP

CARBON claims to be the world's largest civil vehicle armor company with certifications for Jaguar, Land Rover, Toyota, and more.

**Forte.Cars**

\$2,500/yr MSRP

A platform for car owners that provides tools, insights, and concierge services to assist with finding, valuing, and trading vehicles.

**WhyNot.Theatre**

\$750/yr MSRP

Registered charity organization working to build a creative community in Toronto.

**Canopy.Security**

\$2,500/yr MSRP

AI-enhanced smart security camera solution for trucks, backed by Ford.

**Entro.Security**

\$2,500 MSRP

Cybersecurity company specializing in managing non-human identities and secrets (passwords, keys, and access codes).

“You want to keep your domain address short, simple and easy to remember. At the same time, you want it to describe who you are and what you do. Entro is a cyber security company. .Security, for us, is all of the above. It's a win-win situation for us and our audience.” — **Itzik Alvas**, CEO & Co-founder, **Entro.Security**

XYZ INNOVATIONS

# .XYZ 1.11B Class

*\*Wholesale prices for 1.11B Class names can be found on the CentralNic Registrar Console, or contact [hello@gen.xyz](mailto:hello@gen.xyz) for more information.*

The .xyz 1.11B Class is a category of 1.111 billion .xyz domains priced at 99¢\* per year, every year. These .xyz domains encompass all six-digit, seven-digit, eight-digit, and nine-digit numeric combinations, between 000000.xyz through 999999999.xyz.

## A new paradigm of innovation

This first-of-its-kind segment of domains is beneficial to your customers as an inexpensive platform for Internet of Things device connectivity, vanity identification, digital currencies, and more. As a utilitarian tool, the uses for .xyz domains are only limited by the creativity of the people using them. With the exception of activities that violate the .xyz Anti-Abuse policy, there are no right or wrong ways to use the 1.111B Class of domains.

## Inexpensive, customizable, and scalable solutions

With no minimum or maximum registration requirement, the 1.111B Class is flexible enough to serve in individual uses like app testing (e.g. 0000001.xyz), as a VoIP number (e.g. 9998422.xyz), or in sequential blocks to pair with serial numbers (e.g. 12300000.xyz – 12399999.xyz). As thousands of numeric .xyz domains are already being exchanged, the 1.111B Class also make perfect sense as tradable assets or tools for digital currency economies.

### "1.11B Class" (99¢/year)

All 1.111 billion 6N, 7N, 8N, and 9N .xyz domains - availability as of 05/2026

XYZ INNOVATIONS

# .XYZ for Digital Identity

## Send and receive cryptocurrency with .xyz

.xyz domains were the first to function as an easily memorable digital identity and custom identifier for your crypto wallet.

XYZ has supported blockchain technology since 2017 with .xyz as the pilot domain for the Ethereum Name Service (ENS) and Domain Name System (DNS) integration. XYZ helped pioneer the joint solution with Ethereum to provide a memorable wallet address to use in place of the long Ethereum hash. For example, WalletName.xyz instead of 0x6fB9401002640741fEc58faffbd41e3F583D86f1, making it much easier to send and receive digital tokens such as cryptocurrency and NFTs.

## Eth.xyz

The eth.xyz project was created by XYZ to continue supporting the blockchain community.

With eth.xyz, all .eth name holders can display their ENS profiles in all web browsers. This shortlink can work for .eth holders in multiple ways: a lookup where you can more easily find the profile and wallet information connected to an .eth name, a method to share your addresses, or an easy way to showcase your NFT collection.

Every .eth name has been granted automatic access to an eth.xyz shortlink. Simply add ".xyz" to the end of any .eth name in any web browser and the corresponding ENS profile will display. The profile content is automatically populated from publicly available information provided through ENS, and is ultimately controlled by the relevant ENS user.

<https://nick.eth.xyz>

<https://maaria.eth.xyz>

<https://vitalik.eth.xyz>

<https://alisha.eth.xyz>

<https://laurdiy.eth.xyz>

<https://ashtyn.eth.xyz>

XYZ INNOVATIONS

## Anti-Abuse

XYZ has developed a sophisticated abuse monitoring process used to proactively monitor, detect in near real time, and suspend domains in its zones engaging in any activities in violation of the XYZ Anti-Abuse policies. The Registry has developed strong partnerships with many of the industry's leading data providers to help identify and eliminate the bad actors from the many quality users in the .xyz namespace.

### Making it easy to report abuse

XYZ is highly active in online communities to monitor for reports of abuse and build trust. To report a XYZ Registry domain for abuse, anyone can open a support ticket at <https://gen.xyz/abuse>.

### Support Teams can rely on the XYZ Anti-Abuse Team

Once XYZ has suspended an abusive domain, the sponsoring registrar is notified. These domains are usually shut down in a very short period of time to prevent any harm to internet users.

Registrants that have domains suspended by the XYZ Registry can communicate directly with the Anti-Abuse Team by submitting a request at <https://gen.xyz/unsuspend>. Coordinate support efforts with the XYZ Anti-Abuse Team by reaching out to [xyz\\_abuse@gen.xyz](mailto:xyz_abuse@gen.xyz).

### Anti-Abuse in the Press

XYZ Registry's no-tolerance policy for abuse in our zones is recognized by Spamhaus, a leading authority on IP and domain reputation data. Spamhaus published a series of collaborative articles with XYZ regarding domain abuse: <https://www.spamhaus.com/resource-center/getting-the-low-down-from-xyz-registry-on-combating-domain-abuse/>

XYZ is partnered with many organizations to combat abuse, such as:

DNS Abuse Framework

For every website, everywhere®

XYZ INNOVATIONS

# Marketing Campaigns

XYZ is continually building awareness and desire for its TLD brands directly with target markets, and converting that traffic to retail partners. In addition, XYZ invests in the performance of its TLD products by coordinating campaigns and making marketing funds available to retail partners.

Participate in one of XYZ's yearly initiatives to offer exciting deals on XYZ's family of TLDs, or coordinate with XYZ on your ideas for mutual benefit and success.

Don't miss our annual initiatives:

# Venture Funded Companies

## .XYZ is at the center of the innovation economy

At the epicenter of the innovation economy, .xyz emerges as the favored choice for domain names. .XYZ truly is for everyone - and everything - everywhere, and is especially embraced by visionaries in emerging technologies like blockchain, web3, AI, and AR. Startups, researchers, and entrepreneurs in these fields are increasingly turning to .xyz domains to establish their online presence.

End users of .xyz domains not only receive support from leading venture capital firms like Founders Fund, Sequoia Capital, and Andreessen Horowitz (aka a16z), but they also include innovative VC entities themselves, such as Paradigm.xyz, Dragonfly.xyz, and Dispersion.xyz. This backing underscores the domain's strong association with cutting-edge technology and investment acumen.

Below is a selection of ventures innovating on .xyz and XYZ Registry domain names, representing a portion of the more than **\$5B** in cumulative funding raised to date:

AI research company **AMILabs.xyz** raised **\$1.03B**

Founders of **Otherside.xyz** raised **\$450M**

Autonomous robot delivery service  
**Starship.xyz** raised **\$280M**

Stablecoin infrastructure provider **Rain.xyz** raised **\$250M**

Neurotechnology platform **Science.xyz** raised **\$230M**

Blockchain developer **Monad.xyz** raised **\$225M**

Email security platform **Sublime.Security** raised **\$150M**

AI crypto startup **O.xyz** raised **\$130M**

Agentic AI cybersecurity platform **Kai.Security** raised **\$125M**

Access governance platform for machine identities **Oasis.Security** raised **\$120M**

The company behind **Everywhere.Game** raised **\$110M**

AI security firm **Noma.Security** raised **\$100M**

Metaverse gaming startup **Sandbox.Game** raised **\$93M**

Stablecoin payments platform **KAST.xyz** raised **\$80M**

Card trading platform **Alt.xyz** raised **\$75M**

Decentralized exchange (DEX) **Infinex.xyz** raised **\$65.3M**

Data Loss Prevention (DLP) platform **Jazz.Security** raised **\$61M**

AI-cyber firm **Gambit.Security** raised **\$61M**

Cybersecurity startup **OX.Security** raised **\$60M**

Tech startup **Succinct.xyz** raised **\$55M**

DeFi startup **ChaosLabs.xyz** raised **\$55M**

Cybersecurity company **Oligo.Security** raised **\$50M**

An online “social deduction game” co-founded by the former head of NBCUniversal’s gaming business and former SVP of mobile games at Disney.

New case studies every week on Blockchain Thursdays: [gen.xyz/bct](https://gen.xyz/bct)

“.xyz is the domain of a new generation and new technologies. It’s where everything interesting is happening. .Com is like your father’s Oldsmobile. When people see .xyz, it’s an immediate clue that you’re doing something cutting edge, not just technically but culturally.”

— Chris Heatherly, CEO & Co-founder, [TheMysterySociety.xyz](https://TheMysterySociety.xyz)

## CASE STUDIES

# .xyz AI

The **XYZ Registry Domains Report** is a monthly report on [www.gen.xyz/dr](http://www.gen.xyz/dr) where we share exciting highlights from the previous month, including trending keywords, aftermarket sales, and new funding wins for #GenXYZ. You can also learn about inspiring business and new ideas launching on XYZ premium domains, as well as trends – such as special interest in .xyz from the AI and blockchain communities.

“AI” became a recurrent #1 keyword in newly registered .xyz domains, underscoring the distinctive appeal of .xyz domains to visionary individuals innovating in bleeding-edge technologies such as blockchain, web3, and AI.

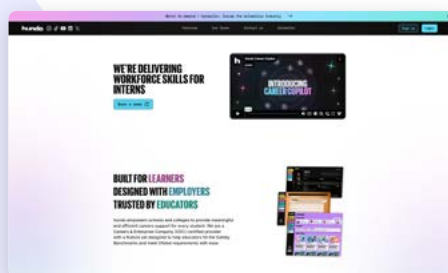

**AI**  
The #1 keyword in .xyz  
monthly registrations

### Brilliant.xyz

\$6M RAISED

Augmented reality company behind open-source Frame AI and Monocle AR glasses. Notable investors include Pokémon GO creator, Oculus co-founder, Siri co-founder, and more.

### Hundo.xyz

\$2M RAISED

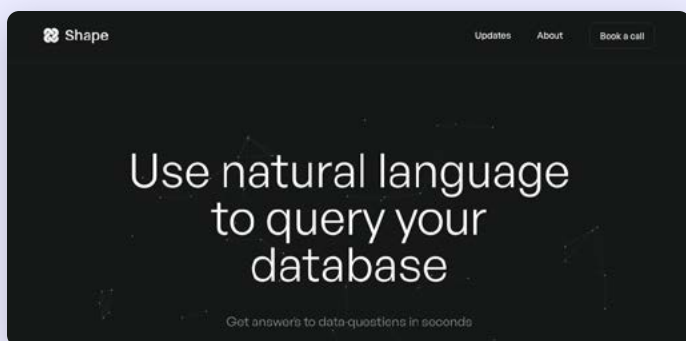

Provides AI lessons for students and parents, integrating collaboration and communication tools that reflect real workplace systems.

### Covalent.xyz

\$8M+ RAISED

AI computing engine startup shaping the future of quantum and high performance computing. Exhibited at the World Summit AI Americas in Montreal.

### Shape.xyz

Data platform backed by startup accelerator Y Combinator, leveraging AI to help you interact with data through natural language.

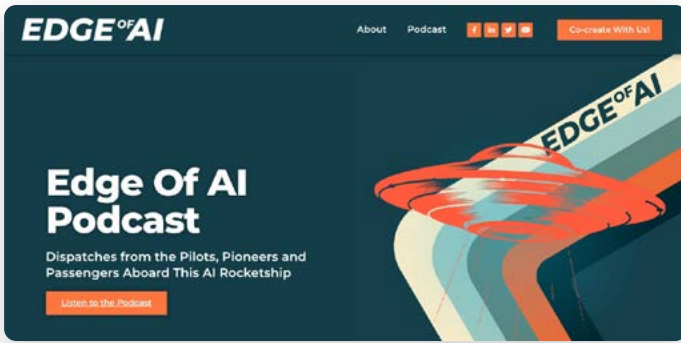

### AMILabs.xyz

\$1.03B RAISED

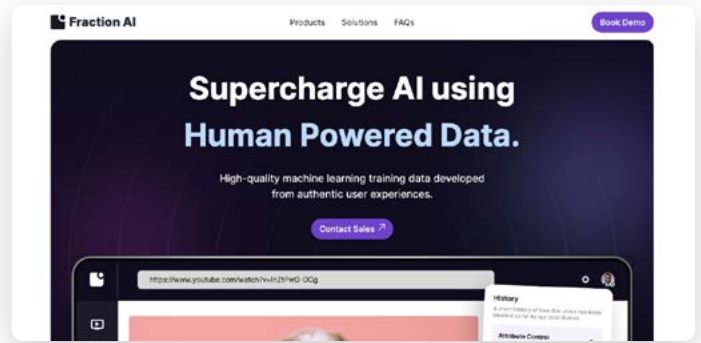

AI research company developing “world models” designed to learn from real-world sensor data, including inputs from cameras and other modalities. Crunchbase News describes the raise as one of the largest seed rounds in Europe, with a focus on advancing world model research.

# .xyz: AI

## EdgeOfAI.xyz

Podcast featuring expert interviews and top practitioners sharing their experience with a distinguished lineup of hosts, with Ron Levy at the forefront.

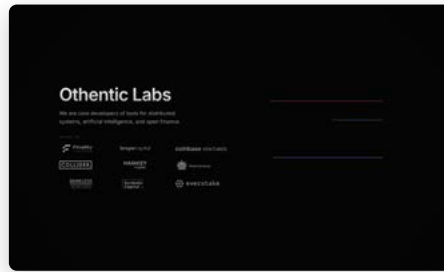

## FractionAI.xyz

AI-enhancement platform focused on improving AI and machine learning projects through human-annotated data services.

## TGAM.xyz

Nonprofit organization The Generative Art Museum (TGAM). TGAM was selected to exhibit at Sònar 2024 Barcelona.

## Othentic.xyz

\$4M RAISED

R&D company developing a framework for building decentralized and distributed services.

## Controlla.xyz

Controlla is a startup focused on augmented reality music production. Founder Rohan Paul is a rapper and producer, previously at DJI and Cardiogram.

## Learn.xyz

\$3M RAISED

Social learning app designed to help users learn about any topic, in almost any language.

**New case studies every week on AI Mondays: [gen.xyz/aim](https://www.gen.xyz/aim)**

“Learn.xyz lets you create learning courses on literally any topic - in a matter of seconds with the power of AI. And 'xyz' quite literally stands for that 'long tail' of content as well. Also, .xyz is for us the new .com, for a new generation trying to have a more meaningful relationship with technology.”

— Christian Byza, Co-Founder and CEO, **Learn.xyz**

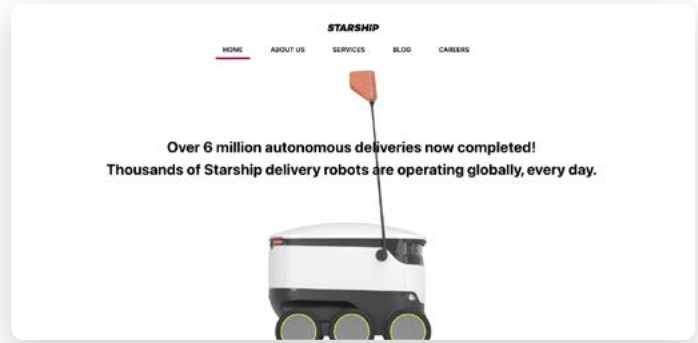

# .xyz: Startups & Businesses

## Block.xyz

UNITED STATES

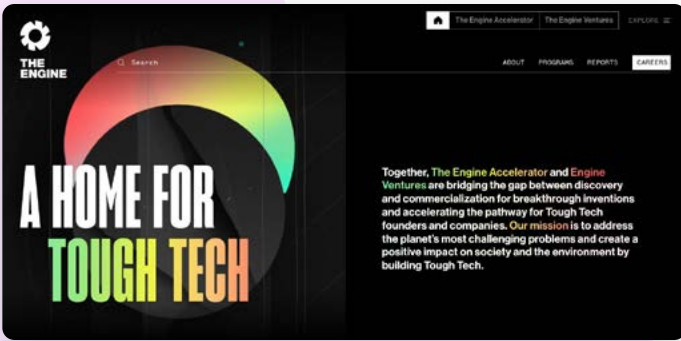

Block, Inc. (formerly Square, Inc.) is the parent company of leading financial services like Cash App, Square credit card reader, and Bitcoin-focused Square Crypto project.

## Starship.xyz

UNITED STATES

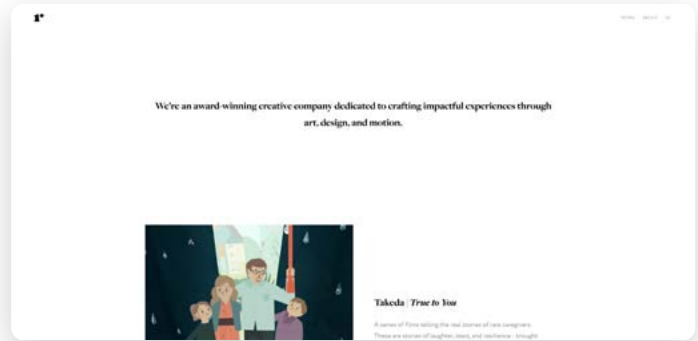

Autonomous delivery robots by the co-founders of Skype. Over \$280 million in funding, with partners including Mercedes-Benz, Postmates, and DoorDash.

## Engine.xyz

UNITED STATES

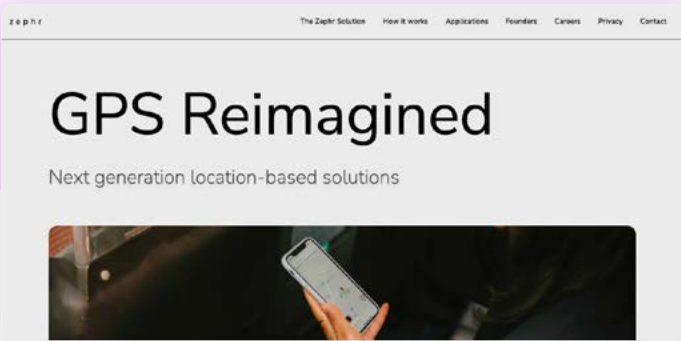

MIT's startup accelerator, now also backed by Harvard, with over \$400 million in funding to provide capital, equipment, lab space, and other resources to entrepreneurs developing technologies that address key societal challenges.

## Reunion.xyz

UNITED STATES

Award-winning creative company founded in 2022 by creative director Chris Carboni. Projects include collaborations with the Equal Justice Initiative, logo animation for Rozam Media's film production division, and a collection of motion design created for various Google campaigns and events.

## Zephr.xyz

UNITED STATES

Tech startup focused on making GPS for mobile devices more accurate and consistent while ensuring user privacy.

“We went with a .xyz domain because we are a GPS technology company and latitude, longitude, altitude are often expressed as xyz coordinates. So it was a great fit since the end product of Zephr is a xyz set of coordinates.”

— Mehedi Hassan, CEO of Zephr.xyz

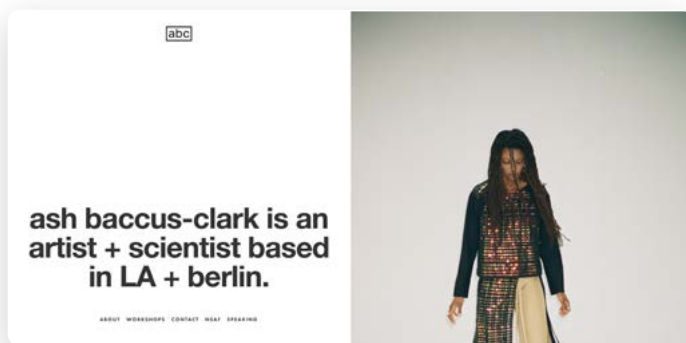

# .xyz: Individuals

## JJDelgado.xyz

UNITED STATES

Digital strategist with over 12 years of business experience at well-known brands across Europe and Latin America, including Amazon Marketing Services South Europe.

## iamabc.xyz

UNITED STATES

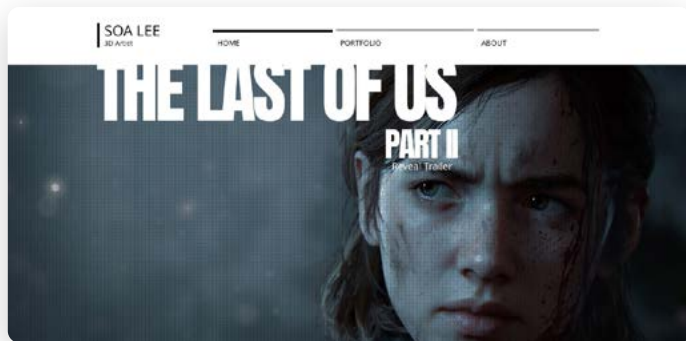

Ash Baccus-Clark, a Vice- and NPR-featured artist, molecular biologist, and multidisciplinary artist who uses new media and storytelling to examine deep learning, cognition, memory, race, trauma, and systems of belief.

UNITED STATES

Acclaimed freelance journalist and winner of the White House's 2010 National Arts and Humanities Youth Program Award.

## SoaLee.xyz

UNITED STATES

Video game design artist who has shaped the appearances of beloved characters from The Last of Us and the Uncharted series.

## Ryan.xyz

UNITED KINGDOM

Tech entrepreneur Ryan Junee has co-founded six companies including Parsable, RxDefine, and Omnisio.

“.xyz is popular with technologists, particularly in web3, and sends a subtle message of being ‘in the know’. I personally chose .xyz because I wanted an ENS domain that was also publicly accessible in the browser (unlike .eth) and .xyz was the first to support this.”

— Ryan Junee, Creator of Ryan.xyz

# Customers Making Waves with XYZ Registry TLDs

## MindsEye.Game

UNITED STATES

Dynamic gaming experience envisioned by Leslie Benzies, producer of Grand Theft Auto.

## Sandbox.Game

UNITED STATES

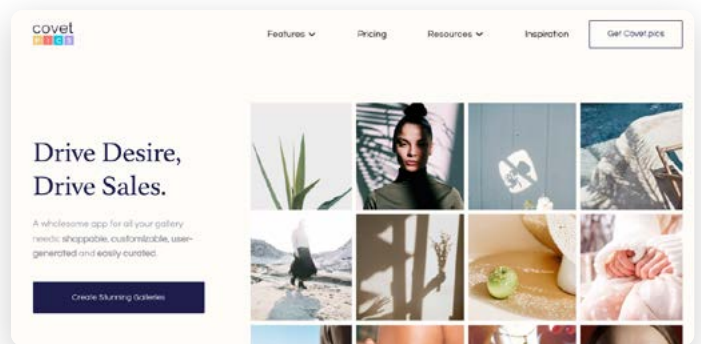

Decentralized gaming platform where players can build, own, and monetize their gaming experiences.

## OMG.LOL

UNITED STATES

Subscription based social networking platform with customizable profile pages.

## Covet.Pics

UNITED STATES

Shopify app that helps users create scalable, customizable, and shoppable picture galleries.

## PartyMouth.LOL

UNITED STATES

A party game from the creators of Cards Against Humanity centered around players shouting colorful phrases together.

## TalkBox.Mom

UNITED STATES

Education platform designed to help parents teach their children how to speak different languages.

# Customers Making Waves with XYZ Registry TLDs
